

Core Question 2: Is the organization in sound fiscal health?

The Financial Performance Framework, outlined in Core Question 2, gauges both near term financial health and longer term financial sustainability while accounting for key financial reporting requirements. Since opening its flagship high school in 2004, Tindley Accelerated Schools has grown to a network of six schools (Tindley Genesis opened in school year 2015-16). In the 2014-2015 school year, it served approximately 1,600 students under its charters with the Mayor's office. Central office support services, including special education services, student assessment, accountability, operations, facilities management, finance and accounting, human resources, technology, safety/security, fund development and external relations, are housed at the network level, and expenditures are distributed to each of the schools. Tindley is currently authorized to open one additional elementary schools.

Tindley Prep Does Not Meet Standard for Core Question 2.1 for the 2014-15 school year.

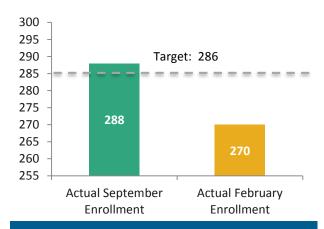

Based on data from the September 2014 count day, the school enrolled 300 students when it projected to enroll 286 students. By February, enrollment decreased to 281, as indicated by the Enrollment Variance calculation. As a result, the school met standard for the enrollment ratio and approached standard for February Enrollment Variance.

The school had fewer current assents than current liabilities (those due in the next 12 months). Thus, it **did not meet standard** for the current ratio sub-indicator.

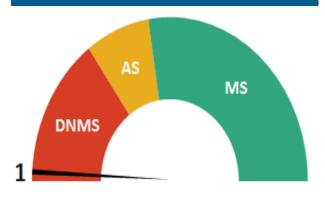

Tindley Prep ended the year with less than one day of cash on hand. This means that if payments to the school had stopped or been delayed post June 30, 2015, the school would have been able to operate for one more day. Based on this data, the school did not meet standard for this indicator.

Finally, the school successfully met its debt obligations based on the information that Crowe Horwath, the school's auditor, provided. Furthermore, there have been no negative communications from the school's lenders. Since the school did not meet standard on two of the sub-indicators in core question 2.1, it received a rating of Does Not Meet Standard for this section of the core question.

Tindley Prep <u>Does Not Meet Standard</u> for indicator 2.2 for the 2014-15 school year.

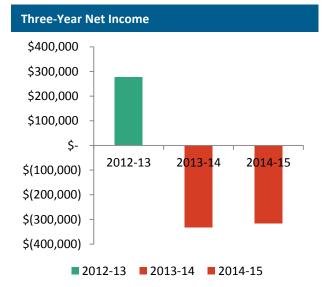

The school **did not meet standard** for the net income sub-indicator. In its current year, it had a net income of **-316,469**.

The school **did not meet standard** on the debt to asset ratio sub-indicator. The school had a ratio of 1.84 meaning that its total debts exceeded its total assets.

Lastly, the school **did not meet standard** for debt service coverage (DSC). It had a debt service coverage ratio of -4.25. Without additional revenue, its current net income will not be sufficient to cover the school's capital lease payments for the 2015-16 school year of \$34,772.

As Tindley Prep did not meet standard on any of the three sub indicators, the school received a rating of <u>Does</u>
<u>Not Meet Standard</u> on Core Question 2.2 for the 2014-2015 school year.

2.3. Does the organization demonstrate it has adequate financial management and systems?

Tindley Prep received a rating of **Does Not Meet Standard** for Core Question 2.3 for the 2014-15 school year.

In their review of Tindley Prep, auditors found a material weakness as well as several significant deficiencies in the school's financial statements. Details of the report, which was published on April 4, 2016, can be found on the Indiana State Board of Accounts (ISBOA) website here. The school responded proactively to the auditor's findings, noting that "Tindley did not have all practices in place" when it transitioned to in-house bookkeeping and "are in the process of developing the appropriate procedures to be in place by June 30, 2016." Tindley Prep did not meet standard for its reporting requirements as it did not meet the on-time deadline for completing its audit, and it only submitted 69% of required financial compliance documentation to OEI on-time.
